## Welcome to Blooms & Bulbs!

We carry a variety of plants and shrubs along with a large inventory of gardening supplies. Our four greenhouses are full of healthy young plants just waiting to be planted in your yard. We grow an amazing selection of annuals and perennials. We also stock a diverse selection of trees, shrubs, tropicals, water plants, and ground covers. Check out our garden ware for your garden accents or as gifts for your gardening friends. We are happy to deliver or ship your purchases.

Our staff includes a certified landscape architect, three landscape designers, and six master gardeners. We offer detailed landscape plans tailored to your location as well as planting and regular maintenance services. We have enjoyed serving Alvin and the surrounding area for twelve years now. Stop by and see us soon!

## Tips & Tricks

Gardening is a great hobby to take up; it gets you outside, burning calories, and produces rewarding results. Whether you're looking to grow some delicious produce or beautiful flowers, these 6 tips and tricks for beginners will get you started off on the right foot!

### Basic Gardening Tips

1. Select plants according to your climate.
2. In planning your garden, consider the composition, texture, structure, depth, and drainage of your soil.
3. Use compost to improve the structure of your soil.
4. Choose plant foods based on your garden objectives.
5. Generally, plants should receive one inch of water per week.
6. Use mulch to conserve moisture, keep plants cool, and cut down on weeding.

## Workshops

Our experienced staff is here to help you plan your gardens, select your plants, prepare your soil, assist you in the planting, and maintain your beds. All workshops are free of charge and on a first-come, first-served basis! They fill up quickly, so be sure to reserve your spot early.

---

### New Composting Workshop!

Our next workshop is entitled "Everything You Need to Know About Composting." This informative workshop will be great for any gardener, whether you plan to invest in a commercial compost bin or simply start a compost pile in a corner of your garden. You will be amazed at how quickly you can produce rich, nutrient-filled compost with only a little effort. Use this black gold to amend your soil naturally, to encourage the growth of healthy plants. Not only will you create rich soil and save water—you will also reduce trash at the landfill by recycling your kitchen scraps and garden materials.

We offer this free workshop on a first-come, first-served basis. All workshop participants will receive a packet of bacteria to kick-start their composting process. Our speaker will be Ann Porter from the County Extension Office. Ann recently completed her Master Composter Certification and is eager to share her knowledge. She is an engaging speaker you will be sure to enjoy. Call 555-248-0806 today to reserve your spot!

---

### Currently Scheduled Workshops

1. Composting (3/1/2018)
2. Pruning (3/5/2018)
3. Water Gardening (3/7/2018)
4. Mulching (3/15/2018)
